

Services for Students with Disabilities (SSD)

The College Board is committed to serving students with disabilities by providing services and reasonable accommodations appropriate to the student's disability and the purpose of the exam. Services for Students with Disabilities (SSD) provides AP, PSAT/NMSQT and SAT testing accommodations **for students who have documented disabilities and appropriate testing that has been completed within the last three years.**

Here's how it works:

- Students and parents submit **one SSD Student Eligibility Form** for all three College Board programs during the student's high school career (**unless he/she transfers to another school**).
- SSD Student Eligibility Forms can be **submitted early**, preferably at the end of the student's freshman year or in the spring prior to the year in which the student takes the first test.
- **Eligibility letters** for students approved to receive accommodations are sent to both students and SSD coordinators.
- Students are assigned **SSD codes** to use when registering for the SAT. Students can register online at www.collegeboard.com.

Application forms to take tests with accommodations may be obtained and filed through the Coordinator of Pupil Support Services, Ms. Jacqueline Browne, in Room 162. The form needs to be completed by the student, a parent or guardian and Ms. Browne. After the form is filed for the first time, the student may take the tests administered by The College Board without having to submit another SSD Student Eligibility form. The student gives the SSD code when registering for the test.

ACT PROGRAM

Accommodations for the ACT are granted through a separate process. Please see Ms. Jacqueline Browne in Room 162 for details.
